

To whom it may concern:

The newly formed Perry Mills Park Committee, under the leadership of the Town of Champlain Council, respectively is asking for your help.

The Perry Mills Park, located in the Town of Champlain, has been in need of refurbishing for many years. There are approximately 40 children in the immediate area ranging in age from 1 to 12 years old. The residents living close to the Park have committed themselves to do volunteer work to bring the Park back to a condition where young and old can relax and enjoy the outdoors.

Clinton County Department of Health has offered a grant (amount to be determined) in order to help in this costly process, but more funds are needed. There is a website, IOBY/Health, (In Our Backyard/Health) <https://www.ioby.org/project/perrys-mills-park>, this will allow you to offer a chance to join them in this worthwhile cause. This donation is tax deductible and confirmation with receipt will be given by IOBY/Health website.

Please help us to get our children outdoors once again to enjoy fresh air, green grass, and fun in the sun.

We thank you in advance for your contribution.
